3. IMPLEMENTATION, MONITORING AND REVIEW – 2025/2026

The Local Government: Municipal Finance Management Act, 2003 (Act No. 56 of 2003) (MFMA) requires that municipalities prepare a Service Delivery and Budget Implementation Plan (SDBIP) as a strategic financial management tool to ensure that budgetary decisions that are adopted by municipalities for the financial year are aligned with their strategic planning tool, namely the Integrated Development Plan (IDP). The SDBIP is a “contract” between the Council, the Administration and the Community. It gives effect to the IDP and budget of the municipality.

The municipal budget shall give effect to the Strategic Goals (SGs) as contained in the IDP. The Top Layer (TL) Service Delivery and Budget Implementation Plan (SDBIP) shall contain details on the execution of the budget and information on programmes and projects. Quarterly, half-yearly and annual performance reports must also be submitted to the Council as a means to monitor the implementation of the predetermined objectives as contained in the IDP. These are submitted in terms of Sections 52 and 72 of the MFMA and in the Annual Report.

The SDBIP is a one-year detailed plan which gives more detail as to how the IDP and Budget of the Municipality will be implemented. This provides the basis for measuring the performance in service delivery against specific targets and the implementation of the budget.

Indicators developed for the Bergrivier Municipality address the SGs of the municipality. The municipality utilises the one-year TL SDBIP to ensure that it delivers on its service delivery mandate by indicating clear indicators and targets. These indicators also form the basis of the performance plans of the Municipal Manager and Directors; hence, the Municipal Manager and Directors are being evaluated *inter alia* on the approved TL SDBIP indicators. In terms of the National Treasury, MFMA, Circular 13 dated 31 January 2005, the **five** necessary components for the SDBIP are:

1. Monthly projections of revenue to be collected for each source (as per the Section 71 Report);
2. Monthly projections of expenditure (operating and capital) and revenue for each vote;
3. Quarterly projections of service delivery targets and performance indicators for each vote;
4. Ward information for expenditure and service delivery; and
5. Detailed capital works plan broken down by ward over three years.
