**Bergrivier Municipal Notice: Water Restrictions Lifted**

Bergrivier Municipality will as of 1 October 2020, no longer have any water restrictions in place.

This comes after a decision was taken at a Council Meeting held on 29 September 2020, to lift the current level 3 water restrictions, as dam levels have risen significantly over the past two years.

Residents are allowed to proceed with their normal activities such as washing their vehicles, watering their gardens (at any time), filling up their pools, and using water for general hygiene and household purposes. The 100 litre per person per day is no longer applicable.

The Municipality will revert back to its 'normal' water tariffs as approved by Council on 29 May 2020, to replace the existing emergency tariffs, which had been implemented when the level 3 water restrictions were approved.

Please take note that your water consumption for September 2020 will be billed according to the 'normal' tariffs. This will reflect in your October 2020 municipal account.

We still urge all residents not to waste water, but to rather use it responsibly.

We would like to thank all residents who have, throughout the drought period, adhered to all the water restriction measures and supported the Save Water Campaign by using water sparingly.

**Bergrivier Munisipale Kennisgewing: Waterbeperkings Opgehef**

Bergrivier Munisipaliteit sal vanaf 1 Oktober 2020 geen waterbeperkings hê nie.

Dit kom nadat daar op 'n Raadsvergadering gehou op 29 September 2020, besluit is om die huidige vlak 3 waterbeperkings op te hef, aangesien damvlakke die afgelope twee jaar aansienlik gestyg het.

Inwoners mag voortgaan met hul normale aktiwiteite, soos om hul voertuie te was, hul tuine nat te maak (enige tyd), hul swembaddens te vul en water te gebruik vir algemene higiëne en huishoudelike doeleindes. Die 100 liter per persoon per dag is nie meer van toepassing nie.

Die Munisipaliteit sal terugkeer na die 'normale' watertariewe, soos goedgekeur deur die Raad op 29 Mei 2020, om die bestaande nooddariewe te vervang wat geïmplementeer is toe die waterbeperkings op vlak 3 goedgekeur is.

Neem kennis dat u waterverbruik vir September 2020 reeds volgens die 'normale' tariewe gefaktureer word. Dit sal in u munisipale rekening vir Oktober 2020 weerspieël word.

Ons doen steeds 'n beroep op alle inwoners om nie water te mors nie, maar om dit verantwoordelik te gebruik.

Ons wil alle inwoners bedank wat gedurende die droogte aan al die waterbeperkingsmaatreëls voldoen het en die *Save Water* veldtog ondersteun het deur die water spaarsamig te gebruik.
